PROFILE SUMMARY

Dynamic data professional with strong expertise in data science and analytics. Skilled in Python, Machine Learning, Deep Learning, SQL, and data visualization using Power BI. Ability to design and deploy predictive models, automate data processes, and extract actionable insights to support strategic decision-making. Delivers practical, data-driven solutions that align with business objectives.

SKILLS

PROFESSIONAL SKILLS	TECHNICAL SKILLS	SOFT SKILLS
Data Analytics	Python	Problem Solving
Data Visualization	R	Creativity
Machine & Deep Learning	SQL	Team Spirit
Predictive Modelling	Power BI	
Statistical Analysis	Excel	
Business Intelligence		
Model Evaluation & Optimization		

EXPERIENCE

Accountant Assistant - Athens, Greece   **Aug 2022 - today**

Responsible for document registration in PBS Prosvasis and myData, compilation of financial statements, and preparation of E3 tax returns and VAT declarations.

Economist, Consultant - Simbiosis Consultants – Athens, Greece   **Nov 2021 – Jul 2023**

Prepared and monitored business investment plans, drafted techno-economic viability studies, managed grant applications, and handled website development and digital promotion for EU-funded programs.

EDUCATION

Master of Science in Data Science and Society   **Aug 2024 – June 2025**

Tilburg University – Netherlands

Pre-Master Data Science and Society   **Jan 2024 – June 2024**

Tilburg University – Netherlands

Bachelor of Banking and Financial Management   **Oct 2016 – Jul 2022**

University of Piraeus - Greece

CERTIFICATIONS & LICENCES

Professional Data Scientist	**Data Scientist Associate**	**Data Analyst Associate**
DataCamp, Issued June 2025	DataCamp, Issued Sep 2024	DataCamp, Issued May 2025

Data Analyst in Python DataCamp, 38 HOURS	**Machine Learning Scientist in Python** DataCamp, 85 HOURS	**Deep Learning in Python** DataCamp, 16 HOURS
Finance Fundamentals in Python DataCamp, 90 HOURS	**Applied Finance in Python** DataCamp, 16 HOURS	**Time Series in Python** DataCamp, 20 HOURS
Associate AI Engineer for Data Scientists DataCamp, 44 HOURS	**Supervised Machine Learning in Python** DataCamp, 25 HOURS	**Coding for Data** Sololearn

PROJECTS

Forecasting Crypto Price Peaks: Regression Based Time-Until-New-High Predictions   01/25 – 05/25

A Machine Learning approach for Recovery Time Estimation

Deep Learning for Driver Distraction Detection   03/25 – 04/25

Comparative Study of Convolutional Neural Networks and Transfer Learning Approaches

Optimizing Supply Chains: Strategic Solutions for the World Food Program   02/25 – 04/25

Design Optimal food supply chain for United Nations World Food Program

Leveraging Gen-AI for Data-Driven Insights at a Company   11/24 – 12/24

Model Development to Predict impact of scientific papers   11/24 – 12/24

Developing a model to predict the impact of scientific papers

Bot Implementation of solving a pathfinding problem   01/24 – 05/24

Implementation of an agent (bot) in python to efficiently solve a searching and pathfinding problem

Pricing Rainbow Options with MATLAB   06/20 – 07/20

Three ways of pricing: Monte Carlo, Antithetic Sampling, Control Variates

LANGUAGES

Greek	**English (Proficiency)**	**German (Basic)**
Native	Certificate of Proficiency in English (C2) & IELTS	Certificate in German Language (B1)

OTHER WORKING EXPERIENCE

Assistant Bartender   Jul 19 – Sep 19

Asterias Seaside Experience | Samos, Greece

Waiter   Jul 18 – Sep 18

Navagos Beach Bar | Samos, Greece

Waiter   Jul 17 – Sep 17

Navagos Beach Bar | Samos, Greece

EXTRA INFORMATION

Born in Samos, Greece	Birthday 09 – 04 – 1998	Military Service (Completed 11/20 – 08/21)
